Marso Construction Completes Waupun Family Aquatic Center

FRANKLIN, Wis. – Marso Construction completed construction on the Waupun Family Aquatic Center this month. The aquatic center is a 9,900 square foot attraction and is fully equipped with a zero-entry pool, swim lanes, diving towers, water slides, bath houses, and a concession area. The completion of the Family Aquatic Center comes in at perfect timing for the beginning of summer.

Marso Construction was the General Contractor for this project and oversaw the construction of the entire site. Marso was contracted to build the bath house, concession area, picnic shelter, fencing, and landscaping and worked with a pool contractor to update the aquatic center for the community to enjoy for years to come.

Marso Construction, based in Franklin, Wisconsin has an extensive background in commercial construction providing general contracting, construction management and development services. Marso Construction, owned and managed by CEO Greg Marso, who also oversees all the activities of The Marso Companies, is a member of Associated Builders and Contractors and in the Better Business Bureau. Call 414-529-4588 or visit www.marsoconstruction.com for more information.
